# Russell Hobbs

A BRITISH ICON SINCE 1952

**Spring/Summer 2022**

**If tea is the backbone of Britain,  
then Russell Hobbs is the kettle.**

*We're iconically British.*

That's as much down to the style of our products as it is our brand's history,  
which goes way back. It's also something we're hugely proud of.

Since the day Bill Russell and Peter Hobbs founded Russell Hobbs in Surrey,  
we've always done things in a recognisably British way.

Take Mr Russell's **"pour half a pint of boiling gravy on it"**  
safety test for any new product, for example.

Creative. Resourceful. And just a little bit ingenious for a brand  
that's about understanding real life's ups and downs.

## We Get Life

We start with what matters to you.

Cooking food worth sharing without the stress. Looking and feeling good, tackling creases on your own terms. Expressing your style, even on the kitchen counter. Spending more time doing what you love (less time worrying).

By finding out what's important in your life first, we'll always be ready to help you, whenever you need a hand, for whatever you want to do.

With our finger glued to the pulse of your modern life, we'll always understand how Russell Hobbs can really be there for you. That unique understanding ensures we create thoughtful products and features that mean you can get on with doing what's important to you.

# Introduction

Season 2022 marks the exciting launch of our Russell Hobbs brand re-stage with a new look and feel for the brand. We are also celebrating the 70th Anniversary of Russell Hobbs.

To support the re-stage and brand development we have seen in the year's gone by, I would like to give special mention to the following Hero Launch introduction to our range:

**Attentiv Collection (Hero launch):**  
It's as if the Attentiv Collection reads your mind. In reality it personalises tea, coffee and toast making to suit whoever's using it. Every slice, any brew, the Attentiv toaster, kettle and coffee bar all know how to make everything just the way you like it, every time.

I would be delighted to hear from you with any comments you may have regarding our Home business. Enjoy the new range and thank you for the ongoing support.

# Impact Iron

## 2400w

*Make a dent in your ironing, not your iron*

The Impact Iron designed for the drop! Its resilient rubber armour means that the inevitable fall, will not be fatal. The Dura-Coat layer absorbs the shock and repels it, keeping your beloved iron safe. But if strength isn't enough to make you swoon, its precision steam tip also helps to make your life easier, working its way into those awkward corners!

# Supreme Steam

## Cordless 2400w

*The smart way for hassle-free ironing*

The most innovative iron, designed with function as well as form at its heart, with no cords for easy ironing. Sitting in its own smart light ring which acts as a safe and secure base and lights up to let you know about the iron's status in use.
